HOW TO RUN MY CODE:

1)LINK LIST MENU:

If you click **go** then the second window will pop out and display you **buttons with method options**.

If you click **exit** then the program will end.

2)SECOND WINDOW

If you click on **add** then it will give you three options for you to enter. When you are TYPING in your answer, make sure to delete **TEXT** from **Text Field**.

3)FOR ANY METHOD That you click on and you have to insert information. Make sure to delete **TEXT** from **Text Field**. If you don't clear the **TEXT** from the **TextField** then you can get an error.

4)INDEXOUTOFBOUNDSEXCEPTION

If the numbers are out of bounds then **IndexOutOfBoundsException** will appear in **CONSOLE**
